### **UG RELATED MATTERS**

#### **40.11 To review the existing practice of making refund on withdrawal of admission by an Undergraduate student**

Students who are finally admitted to B.Tech. programs through JAC are required to register and pay the balance fee. In the past it has been found that some candidates neither withdraw the admission within the stipulated time limit as per procedure specified in the JAC brochure nor report to the institute for registration by paying the balance fee. Consequently, the seat allotted to the candidate remains unfilled thereby causing loss of revenue to the institute, besides loss of opportunity to a deserving candidate, who could have utilized the seat.

Later on such candidates come forward with the request for refund of fee on one pretext or the other. The institute has not accepted their requests in the past but they keep on making repeated requests for refund. The matter was recently put up to the Admission committee (for Undergraduate programs) at its 2<sup>nd</sup> meeting held on 11<sup>th</sup> October, 2018. While discussing the cases of refund of fee on withdrawal of admission the committee, inter alia, recommended as under:

“Arising out of discussions the Committee recommended that existing practice of making refund on withdrawal of admission may be put up to Senate/BoG for review.”

Accordingly it is submitted that the institute currently follows the procedure specified in the Information Brochure of JAC. As per existing procedure of Joint Admission Counseling (JAC) 2018, the candidates who wish to withdraw admission have to submit request within the specified date of withdrawal through JAC and the candidate will get refund as per section 6.2 in the information brochure mentioned below:

**“Withdrawal of Allotted Seat and Refund of Fees**

For withdrawal of admission, candidate is required to submit a request through JAC website ONLY.

1. Last date of withdrawal with a penalty of Rs.1000/- (Rupees One thousand only) is July 22, 2018 which is reporting date of last round of counseling (i.e. sixth round of counseling).
2. No request for withdrawal will be entertained after July 22, 2018.
3. Fee refunds for all withdrawals will be processed within 30 days after closing of admission process.”

It is further mentioned that some of the candidates also make plea to refund the fee as per notification issued by University Grants Commission (UGC). The UGC vide its notification of December 2016 has, interalia, notified the following refund policy as per Clause 4.2.3 reproduced below:

“4.2.3 If a student chooses to withdraw from the program of study in which he/she is enrolled, the institution concerned shall follow the following four-tier system for the refund of fees remitted by the student.

<b>Sr. No</b>	<b>Percentage of Refund of Aggregate fees*</b>	<b>Point of time when notice of withdrawal of admission is served to HEI</b>
(1)	100%	15 days before the formally-notified last date of admission
(2)	80%	Not more than 15 days after the formally-notified last date of admission
(3)	50%	More than 15 days but less than 30 days after formally-notified last date of admission
(4)	00%	More than 30 days after formally notified last date of admission

*\*(Inclusive of course fees and non-tuition fees but exclusive of caution money and security deposit)*

4.2.4 In case of (1) in the table above, the HEI concerned shall deduct an amount not more than 10% of the aggregate fees as processing charges from the refundable amount.

4.2.5 Fees shall be refunded by all HEIs to an eligible student within fifteen days from the date of receiving a written application from him/her in this regard.”

Senate is requested to review the existing procedure for refund of fee and make appropriate recommendation to the Board of Governors.

#### 40. Recommendation/Report by PGC

##### **1. To consider recommendation of the PGC for giving waiver from TA duty for PhD students who are receiving Institute fellowship.**

Senate in its 39<sup>th</sup> Meeting discussed the recommendation of the PGC made at its 30<sup>th</sup> meeting held on 09.07.2018 for giving waiver from TA duty for PhD students who are receiving Institute fellowship. After detailed deliberations the Senate agreed for grant of waiver for two semesters from TA duty to Ph.D. students who are on institute fellowship for the entire duration. The request for waiver will be considered after doing TA duty for 6 or 7 semesters. The students who are on RA ship are not to be considered for such waiver. The members of PGC, however raised a point that they are looking for a waiver from TA duty at any stage, to which the Senate requested the PGC to reconsider the recommendation and come up with a suitable proposal, as the student who is on Institute Fellowship initially might get shifted to RA ship later.

PGCs recommendation regarding the same will be placed on table.

#### **OTHER MATTERS**

##### **40.26 To report the status of Suit No.CJ/1151/2018, filed by AnimeshAttri in the court of Hon'ble Shri Gaurav Gupta, Civil Judge Junior Division-x, Civil Courts, Amritsar**

A Civil Suit No.CJ/1151/2018 (Animesh Attri Vs. Delhi Technological University and Anr.), has been filed in the court of Hon'ble Shri Gaurav Gupta, Civil Judge Junior Division-x, Civil Courts, Amritsar, on behalf of Mr. Animesh Attri, JEE (Main) Roll

No.17302842, a candidate admitted to our B.Tech. (CSD) program with Roll No.2017280 through JAC 2017. Since Mr. Animesh Attri had neither paid the balance fee of Rs.60,000/- for first semester by 07.08.2017 nor reported for the classes, the seat allotted to him remained unutilised, thereby causing loss of revenue to the institute and wastage of a precious seat as the seat could not be offered to any other deserving candidate. Hence his request for refund of fee was not accepted. The above suit has been filed for recovery of Rs.70,000/- along with future interest @ 18%. The Institute has hired an Advocate to appear and defend our case; detailed reply to the petition opposing the claim has already been filed. The next date of hearing is fixed for 27.11.2018

**39.19 To consider a proposal for Encouraging women students to join IIIT-Delhi**

Chairman, Senate apprised the members of the background of the proposal for Encouraging women students to join IIIT-Delhi. During the course of discussions it was noted that for admissions to BTech, the institute has the concept of bonus marks - which are granted for a host of achievements. From last year, IIITD has been granting some bonus marks to

Delhi students who are in 99th percentile of the CBSE. For the 99th percentile, the institute gets the cut-off from CBSE. They have indicated that they can give cutoffs separately for girls and boys. After detailed deliberations the Senate, in order to encourage/admit more girls, recommended to give bonus marks to boys who are in 99th percentile in CBSE among boys, and the same amount of bonus marks to girls who are in 98th percentile in CBSE. (Later, if this percentile does not achieve the desired effect, it can be further reduced.) This method will make more girls get admission in IIIT-D, without creating a "quota" for women (which many girl students oppose). It also aligns well with our approach for giving bonus marks. Further, the Chairman, Senate was authorized to take up the matter with the Board of Governors for approval. The Senate agrees to the final cut off (even if lower) to be decided by the Board.

**39.22 To consider the request of Mr. Udai Chopra (2012114) and Ms. Purnima (2012151) for grant of extension to complete the remaining credits for completion of degree requirement.**

Chairman, Senate apprised the members of the request received from Mr. Udai Chopra(2012114) and Ms. Purnima (2012151) for grant of extension to complete the remaining credits for completion of degree requirement. After detailed deliberations the Senate agreed to their requests for extension with the following stipulations:

The Counselor may examine their requests and suggest the steps to be taken to monitor the progress of these students.

The students concerned should give and demonstrate plan as to how they will complete the remaining credits towards completion of degree requirements.

To consider inviting their parents to discuss and appraise them of the progress of their wards.

The Senate also recommended to to identify such students at an early stage. Following warning signals to be used to identify such cases: core courses left at the end of 6<sup>th</sup> Semester, considerably low SGPA/CGPA wrt the previous semester, more than one “F” grade in a particular semester. The Senate recommended doing regular academic counseling of such students and monitoring their progress throughout the semester. The Program Coordinators and HoDs should meet the students. Also the students should be brought in contact with the counselor. Regular performance monitoring report and the outcome of the interaction of such students to be reported to UGC/Senate. Also those who are unable to complete their graduation in 4 years, should be clearly informed that as stated in the regulations, no more than 6 years will be given to successfully graduate.

Chairman, Senate apprised the members of the request received from Mr. Aman Verma (2011015) for award of degree by considering the credits completed by him or allow him to migrate to dual degree by giving him exemption from CGPA requirement of 7.00. After detailed deliberations the Senate did not agree to his above requests. However, he was allowed extension with the stipulation that he has to complete his degree requirements in next one year based on the condition that no further extension will be given to him. Senate also suggested that student should submit a one year plan for his credit completion along with the undertaking signed by him and his parents for completing the credits in next one year.

**39.25 To consider certain regulation related issues for clarifications**

Chairman, Senate apprised the members that with the new programs being added, the earlier regulations need some updations. . After detailed deliberations it was decided to go through the regulations, identify such points and send to program coordinators with necessary clarifications. If the Coordinators are in agreement with the clarifications, the relevant regulations wherever necessary may be suitably modified with the prior approval of the Senate.

**Action : Academic Section**

**39.26 To consider the issue of reduction of course contents for certain students**

After conclusion of the discussions on the agenda points Dr. Pushpender Singh pointed out that some representative of the Student Senate has shared concerns and requesting to reduce the rigor of some of the courses. After detailed deliberations it was clarified that student representatives should not come forward with such requests. The concept of student representatives was earlier started to help the students who are unable to convey their point

to the Instructors, however since this is now being used by the students for a different purpose, the Senate suggested that SS should be informed about stopping the concept of Student Representatives and any student, if facing an issue with the course, should directly talk to the Instructor/Program Coordinator himself/herself.. DOAA was accordingly requested to send a suitable mail to the Student Senate..

MT16129	CB	CB	Vaibhav Tripathi	Rahul Garg (IIT-Delhi)	Ganesh Bagler	An fMRI investigation of the effects of Yoga Nidra meditation on the brain using inter-subject correlations.	(i) Among the other four students, whose work have been recommended for best thesis, Vibhav, based on reviewer's score topped the list in CB than all the other students. (ii) Further, according to reviewers, his work is found to be original and independently carried out with little help from his advisors. (iii) His grip over the topic and thorough literature survey of the area had the impressed reviewers immensely. (iv) His presentation was also found to be neat and uptight.
MT16086	ECE	VLSI & EM	Ankush Mangain	Anuj Grover		Active Control of Retention Voltage of SRAM	Our reasoning is that they both have publications in very good venues, the theses are very well written, the examiners' overall ratings are very high and the comments are mostly positive.
MT16110	ECE	VLSI & EM	Saptak Banerjee	Sneh Saurabh		Realizing AND functionality using single Tunnel Field-Effect Transistor	

Note: CSE Committee didn't recommend any thesis work.

Comments by the committee-We came to the conclusion that while the work done is fine, it is not yet the level which one would expect in the best M.Tech thesis

Change from One Program to Another

The institute does not currently offer a Masters in any of the Social Science disciplines. Therefore, in scenarios where a student fails his or her comprehensive exam or the PhD thesis is not found suitable, migration to a different program is not possible.
