61.5 ITEMS FOR DISCUSSION AND CONSIDERATION

61.5.1 UG Matters

61.5.1.1 To consider the recommendation of the Academic Affairs Committee to clarify on counting Core / Core elective courses offered in III/IV Year (UG Programs

The AAC, in its 33rd meeting, thoroughly discussed and concluded that electives of 3xx or higher should be different from the core courses specified in the regulations

of CSE, ECE, CSAM, CSD, CSB which will count towards 32 credits of CSE/X courses. CSAI, CSSS, and EVE UG programs have separate regulations in this regard; hence it will not impact specific regulations of these programs.

The AAC also proposed to replace the phrase "3xx or above in the last four-semester" with "3xx or above" in UG program-specific regulations of CSE, ECE, CSAM, CSD, CSB. This is because our UG programs are credit-based, and the students can meet their graduation requirements by taking courses in any semester.

The Senate is requested to consider and approve the above recommendations of the AAC.

61.5.1.2 To consider the recommendation of the Academic Affairs Committee regarding the conversion of Grading for exchange courses done at the SDU.

IIIT-Delhi has an MoU with the University of Southern Denmark, SDU, for academic collaboration, faculty and student exchange. The MoU does not mention the grade conversion guidelines. As per the current guidelines, if it is not mentioned specifically in the MoU, then the grades will not be counted towards CGPA; only the credits will be considered for graduation requirements.

This point was discussed in the 34th AAC meeting, and the AAC recommended adding the below mapping to the MoU:

SDU Grade	IIITD Grade
A (12)	A (10)
B (10)	B (8)
C (7)	C (6)
D (4)	C- (5)
E (2)	D (4)
F/ Fx (0, -3)	F (2)

The Senate is requested to consider and approve the above recommendations of the AAC to add the above mapping to the MoU.

61.5.1.3 To consider the recommendation of the Academic Affairs Committee regarding the qualification of a supervisor for guiding the ENT BTP track

The AAC, in its 34th meeting, noted that currently only the regular and visiting faculty having a Ph.D. can guide a BTP. Following a detailed discussion, the AAC recommended that a full-time Professor of Practice (PoP) be permitted to oversee the ENT BTP track as advisor. The AAC discussed the matter in its 31st and 32nd meeting and deliberated the recommendations received from the department, and proposed the following:

- Online classes may be allowed only when faculty leave is approved by competent authority.
- The duration of online classes should be limited to a maximum of "two weeks," up to four lectures per semester per course.
- Online sessions will not include labs and tutorials.
- Online classes should include live interactions between instructors and students. Recorded videos for self-study should not be used as a replacement for online classes.

The Senate is requested to consider and approve the above recommendations of the AAC.

The AAC, in its 32nd meeting, discussed the matters pertaining to the Make-up exam and grade change process and recommended the following:

60.5.2.4 To consider recommendation of the Academic Affairs Committee (AAC) for Course work relaxation for a Ph.D. Student of Mathematics Department

This matter was discussed in 30th AAC Meeting, where the department was requested to discuss the proposal, the department has discussed it and below is the updated proposal

A Ph.D. student in the Department of Mathematics has done M.Sc. (Mathematics) + M.Tech. (Industrial Mathematics and Scientific Computing). Currently, in the PG regulations of the Mathematics department, there is no mention of the course work of the students who come with M.Tech. degree in a related field.

Based on the department's suggestion, as per clause 16.2(b) of the PG regulations, the following request for the concerned student is made:

As there are no guidelines regarding students who have done M.Sc. (Mathematics/related fields) + M.Tech. (in related fields), the concerned student should be allowed to do 16 credits of coursework. He has done M.Sc. in Mathematics from IIT Delhi and MTech. in Industrial Mathematics and Scientific Computing from IIT Madras; based on the background, AAC to provide him the relaxation.

The AAC deliberated and approved the above proposal and recommended the same to the Senate for approval.

After a brief discussion the Senate agreed to the recommendation of the AAC.
